WFCR LISTENERS ---

Do you object to the way WFCR recently removed several popular programs, without any consultation with listeners? Do you want WFCR to respond to community input and reflect the diverse cultures and interests of its listeners? Do you want to put the ***Public*** back into ***Public Radio***? A group has formed with these goals: Go to **justiceandpeace.net** for information about it.

If you pledge to WFCR during its fund drive, please give as your comment, *"I'm disappointed about the programming changes. WFCR needs to have a community advisory board and regular open meetings with listeners--now!"*

If you support our effort, please provide your name (printed), your town, and - if you wish - your email so we could contact you.
